CREAM OF NEW ROSES.

We here offer what is good in the new Tea and Hybrid Tea Roses. To have what is good you must try these Roses. They are the best that England, France, Luxemburg, Germany, Italy, Ireland, Holland, and America can produce.

American Beauty—Good, strong grower, free bloomer; color rich rosy-crimson, very handsome; two-year-old plants, 75c each.

Columbia (H. T.)—This is a new American Rose, grown by the veteran rosarian E. G. Hill. It is a very vigorous grower of a true pink shade, deepening as it opens to glowing pink. A peculiarity of this variety is that the shades all become more intense until the full maturity of the open flower is reached, and this color is enduring. Two-year-plants, 75c each.

Double White Killarney—Pure white sport from White Killarney; has much larger bud. 2 years, 75c each.

Double Pink Killarney—The Killarney that will supersede the Killarney now grown. Awarded certificates of merit by the American Rose Society. 2 years, 75c each.

Frau Karl Druschki (The White American Beauty or Snow Queen)—An everywhere hardy, vigorous grower, with bright green leaves delicately veined; splendid long buds and magnificent snow white blooms with large saucer-shaped petals. Rightly named. 2-year-old plants, 75c each.

Gladys Holland (H. T.)—Of magnificent form and size, color buff shaded orange-yellow, outside of petals pearly-peach. Very free flowering. Awarded gold medal National Rose Society of England; 2-year plants, \$1.00.

Los Angeles (H. T.)—The following is the originator's description, all of which we fully indorse: "Los Angeles is, by all odds, one of the finest Roses ever introduced. The growth is very vigorous, and produces a continuous succession of long-stemmed flowers of a luminous flame-pink, toned with coral and shaded with translucent gold at the base of the petals. In

richness of fragrance it equals in intensity the finest Marechal Niel. The buds are long and pointed, and expand into a flower of mammoth proportions, while the beauty of form and ever-increasing wealth of color is maintained from the incipient bud until the last petal drops." Two-year plants, \$1.00 each.

Lady Alice Stanley—The petals are shell shaped, forming a perfect flower. Outside of petals is a deep coral-rose; inside delicate flesh, often flushed and suffused with bright pink. Without doubt a magnificent rose. Awarded gold medal. 2-year-old, 75c each.

Mrs. Henry Winnett (H. T.)—A new Canadian Rose that is a winner, this Rose having secured the prize over all new red Roses at the Cleveland show. This is probably the best red Rose to date. Long strong stems of a rich bright shade of crimson. It is a color that pleases every woman. Two-year plants, 75c.

Mrs. Chas. Russell—Pink American Beauty, enormous in size, which lines into beautiful shape in flower, stem, and foliage. 2-year-old plants, 75c.

Richmon—Color fine red. Produces freely throughout the season long pointed buds and elegant dark foliage. Has as delicious a fragrance as American Beauty. Was awarded the silver cup at the World's Fair for the best seedling. Two-year-old plants, 75c.

Sunburst—A magnificent giant yellow rose, well adapted for outdoor growing, being a vigorous and healthy rose. Buds long and pointed, borne singly on long, stout stems, opening full and double. The color is superb orange copper or golden orange, with a deep orange center. It has proven invaluable for bedding and garden purposes. This rose creates a sensation wherever grown. 2-year-old plants, 75c each.
